About ART:360

ART: 360 is a supplemental art program administered by Cattaraugus-Allegany BOCES and hosted at the Wellsville Creative Arts Center. Each school year, we offer four 8-week sessions held one evening a week and designed for students grades 7-12.

Our Mission

The Wellsville Creative Arts Center exists to enhance the quality of life for the people in our community. Its purpose is to provide high-quality education through creative programming in a venue that supports a wide range of cultural and community activities. The Arts Center functions through the collaborative efforts of dedicated employees, volunteers, and supporters.

FREE CLASSES

Drawing & Painting

CORAH LOROW

An introductory class that takes an in depth look at the skills required to draw the human face, body, and landscapes. Lessons and demos will provide an understanding of how patterns and light can affect form. Students will be introduced to basic tools that prepare them for strong composition. This class will cover multiple mediums, proportion, and design. With this course, students will be able to create their own artwork using the proper techniques needed for beginner through advanced drawing and painting.

Functional Ceramics

BILL MOON

This class is for all skill levels. Students will be guided through the process of throwing and finishing utilitarian forms. Students will be taught how to make forms ranging from mugs and bowls for the beginner to casseroles, pitchers and jars for the more advanced students. Students will learn the importance of creating utilitarian work that can be both aesthetically pleasing and used daily. The class will focus on a ground up process from clay prep to a finished piece ready to be put to use. This class will be a great introductory class for students new to clay and a challenge for returning students looking to expand their body of work.

Cooking

LYDIA KOEHLER

Over this 8 session course students will learn the fundamental building blocks of cooking, basic recipes, food preparation, food handling safety and working with a wide selection of ingredients. Students will leave the class with essential cooking skills they can use throughout their life and/or continue with an advanced culinary education in the future. Those who take the class will leave with the knowledge and confidence that there will be no meal they can't make!

Guitar

SHELBY SULLIVAN

This course is designed for the beginner student who is eager to learn the basics of guitar. The class will cover basic chord structure and techniques to give students the opportunity to play their favorite songs. With plenty of individual attention instructors will help students progress on their own goals. Students can repeat the course to build their skills and techniques and refine their personal style and expression. Have fun, learn and find your new talent on guitar. Students will need to bring their own guitar or make arrangements to acquire one. Electric or acoustic guitars are fine. With electric guitars, students will need to provide their own amplifiers.

Creative Coffee

KYLE ROYAL

In this course students will be introduced to the history, types, sourcing and preparation of coffee and tea. While indulging in coffee and tea beverages participants in the class will develop a deeper understanding of one of the world's most popular beverages. Students will learn proper cupping techniques, different drink combinations, keep tasting notes and get a grasp on what it takes to make the perfect cup in a busy coffee house setting. If you love coffee and would like to master a new skill set this class is for you!
